GREENE HERB GARDENS

Growers of Fine Seasonings

Greene, Rhode Island

PLANTS will be shipped the first part of each week, via Parcel Post, Special Delivery, unless otherwise requested. Price of plants is for minimum size in 3" pots. Please add sufficient for mailing and packaging: \$1.00 for 1 to 4 plants, \$1.50 for 5 plants or over. Any balance will be refunded. We cannot be responsible for failure of plants due to delay and rough handling enroute. Shipping of plants will begin after April 15th, or when weather permits.

RARE AND UNUSUAL HERBS we may have, as well as others not listed. If we do not, we may know of other growers we can refer you to. Please inquire.

METHOD OF FARMING We farm by the "organic method", e.g. without the use of poisonous sprays and treated minerals but with the use of animal manures (goat, cow, and chicken,) mulches, slow acting, untreated minerals, and green cover crops. We try to return as much to the land as we reap, thus maintaining the balance of nature. Our guideposts are:

1. Organic Farming  
Emmaus, Pa.
2. Bio-Dynamic Farming  
Spring Valley, N.Y.
3. Natural Food Associates  
Atlanta, Texas
4. The Soil Association  
London, England
5. Friends of the Land  
Columbus, Ohio

## THE SALAD GARDEN

Said a dinner guest one day, "My! this is a good salad! It is simply "out of this world!" So fresh! So green! So... so delicious! How do you make it?"

"Yes, it is quite refreshing," we replied, "and quite simple to make... if you have a Salad Garden and a few other things. A spot of earth, as small as 10 square feet will give you enough herbs and greens for most of the year. They are as much a part of our daily fare as bread and milk. We would be lost without our oak leaf lettuce, kale, onion, basil, burnet, chervil, chives, parsley, peppermint, rosemary, sage, marjoram, tarragon, thyme.... oh, the list is endless. And believe it or not, we like the more lowly herbs too, that most people call weeds, such as dock, "pussley", lambs quarters, cow slips, breaks, stinging nettle, and live-forever!"

"But my husband and I would never have time to grow herbs and weeds..." said our guest. "Isn't there a market where we can buy them?"

"Well,... there may be, but we don't know of any... Why don't you try planting just a few of the bare essentials, such as basil, parsley, rosemary, marjoram, spearmint, tarragon, and thyme? Try these seven. After one season, you will never be without them. Come, let us go out into the Salad Garden!"

LOCATION Greene Herb Gardens is located 1.5 miles from Kettle's Store and the Fire Station, in the little town of Greene, R.I. on route 117, west of route 102, and southeast of junction of routes 117 and 14. We are 27 miles SE of Providence, 60 miles from Boston or Hartford, 187 miles from New York City, 1492 miles from Minneapolis, and 5016 miles from Waialua. Telephone Express 7-3652

VISITING HOURS The gardens and greenhouse are open every day from 1:00 to 5:00. Please plan your visits within these hours. We appreciate the morning hours for daily routine work and farm chores. Faraway travellers will find good accommodations at nearby motels.
